What to do now if you have cancer... 3

What to do now if you have cancer...

by Sari - Friday, July 01, 2016

<http://grovecanada.ca/what-to-do-now-if-you-have-cancer/>

You want one of each of the MINUS(detox) column if you are doing anticancer!

Grove Brain & Body Part Chart

Brain ●	Body ■	♀ Minus -	♂ Plus +
frontal lobe	thyroid	zinc	lead ●
motor cortex	thymus	manganese	iron ●
parietal lobe	lungs lymph nodes	titanium	aluminum ●
medulla oblongata	heart	potassium	aurum ●
pons	kidneys	carbon	nitrogen ●
occipital lobe	pancreas	selenium	sugar ●
cerebellum	liver	oxygen	Her2+ ● hydrogen ●
pituitary gland	adrenal gland	iodine	Pr+ ● calcium ●
globus pallidus hypothalamus	spleen	copper	Er+ ● phosphorus ●
broca's area wernicke's area	gallbladder	magnesium	mercury ●
pineal gland	colon	fluorine	bismuth ●
corpus callosum cerebral aqueduct	prostate or skene's gland	boron	molybdenum ●

Coloured Circles indicate colour in Fotoflexer

The flow of elements
The FLOW Alternates between MINUS & PLUS
ie: zinc lead manganese iron & so on

Pitcher Plant is Zinc

holy basil, vanilla beans, hemp seeds, white willow bark are titanium

pancreatic enzymes, garlic, cayenne pepper are seleniums

apricot kernels, milk thistle, raw saffron are Oxygens

Madagascar periwinkle, vinpocetine & kelp are Iodines

Ginkgo Biloba is selenium
coffee is Copper

heat, saunas, infrared lightbulbs, ginger root, camu camu powder, fruits, Zincs

Fluorine is in Moringa Oleifera plant

Boron is in small flowered Willowherb

hyperthermia: hot sauna cold shower, or hot & cold shower alternating, raises Zinc too

exercise raises magnesium

http://www.grovecanada.ca

Mugwort & Nutmeg are manganese

apple cider vinegar is zinc that removes Lead

hawthorne graviola, stevia, xylitol are potassium

CBD Oil is a Titanium that removes Aluminum (cholesterol)

All OILS are CARBON

B17 is oxygen that removes Hydrogen

ginseng is Oxygen

brain parts are sided in pairs (left or right side)

or have their own name for each part of the pair

Each body part contains 2 elements a Minus & a Plus

Each brain part controls a body part

Minus elements DETOX, Plus elements REPAIR

Tamoxifen is an Iodine that removes calcium(Pr+)

licorice root is copper that removes phosphorus

Anticancer chart by Sari Grove

- 1) Ok... So I can take a look at how you are doing... [By editing a photo that you take...](#)
- 2) I usually start with a photo... I edit it in 3 different programs... That gives us a place to start from...
- 3) The first thing I recommend for spread, including bone metastasis, is Licorice root... The extract format is the strongest... It stops spread & reverses it... If you have a health food store near where you are look for St Francis brand or Orange Naturals... If you can get some quickly, start taking that fast...
- 4) People have begun with half a bottle day of the St Francis tincture for 10 days... That will nip things in the bud ...
- 5) Concurrently if you can get some B17, or apricot kernels, that deals with the bones specifically...
- 6) Licorice root is a root... Not a candy...
- 7) How much do you weigh?
- 8) You can grind them in a coffee grinder & mix with unsweetened applesauce for taste... at 135 lbs, you take 1-2 for every 10 lbs of body weight... So you can take 13.5 a day or more... (start with 13.5) Apricot Kernels...
- 9) You will also need Iodines... Iodoral to start...
- 10) It is a pill form of Iodine... Start at 12.5 mg a day & work your way up to 50 mg a day...
- 11) While waiting for your order, get some liquid kelp locally & start guzzling it... Large amounts... You

need heavy loads of Iodine...

12) When you feel detox symptoms, you can drink pink Himalayan salt with water to handle that... (if you overdo the iodine)

13) Order Humaworm antiparasitic, the 30 day treatment ... To kill the parasite... Affordable... Their Humana tea too...

14) The Licorice root eats estrogen... That's why...

15) If you can also get bloodroot capsules from Zenith herbals... They take a while to ship but are very strong... Double strength...

16) Alternative medicine is much milder than regular medicine... The only danger is that you don't take enough...

17) The Licorice root is for the estrogen... Iodines shrink tumours... Which is different

18) The apricot kernels will deal with the bone areas... Some of these creatures feed on Hydrogens- the kernels are Oxygens, cyanidins, which dry up the hydrogen areas & starve them...

19) Each supplement you take will target a different body part...

20)

21) (I thought Licorice root was estrogenic?) No... internet Mumbo jumbo... Licorice root kills the parasite... Very specifically...

22) It lowers Phosphorus which is estrogen... Causes phenotypic reversion where malignant reverts back to benign... (Licorice root)

23) After you kill the parasite, then you can repair the bone... (bone metastasis)... But you can't start repair until you kill all parasites...

24) Which is why the Licorice root goes first... Humaworm antiparasitic contains it too- which should be taken as soon as possible too... Because there may be progression, you will need the antiparasitic too... The Humaworm.com is the strongest recipe...

25) How long should it take? As long as it takes for you to order, wait for shipment, & start taking things... This has to be done quickly... The faster you start, the faster this will happen...

26) Depends on you...

27) Raw plant based

diet... <http://grovecanada.ca/wp-content/uploads/2016/03/22My-Raw-Food-Diet-Cure22.pdf>

28) Bone is made of several things... Once you kill all & any creatures, you can carefully start to repair damage... It is dangerous because the things that repair are also food for parasites... If you kill the creatures/ cancer first, the bone will naturally be able to start repairing itself... That is a first step... Remove the thing that is chewing on the bone...

29) to be continued...

30) If you have EVER taken a birth control drug, Fertility drugs, any kind of progesterone including cream & natural forms, then you need to REMOVE that from your body now... The 3 things that do this are Ginkgo Biloba (Selenium family on Grove Body Part Chart that removes Sugars from the Pancreas & Occipital lobe), Vinpocetine (Iodine family that removes progesterone Calciums & thus shrinks tumours), & Butcher's Broom (Oxygen family that lowers Hydrogen in Liver & thus reduces necrosis & Hypoxia areas as well as stopping bone metastases)...

Here is a bit about Ginkgo Biloba...

"Fundam Clin Pharmacol. 2003 Aug;17(4):405-17.

Ginkgo biloba extracts and cancer: a research area in its infancy.

DeFeudis FV1, Papadopoulos V, Drieu K.

Recent studies conducted with various molecular, cellular and whole animal models have revealed that leaf extracts of Ginkgo biloba may have anticancer (chemopreventive) properties that are related to their

antioxidant, anti-angiogenic and gene-regulatory actions. The antioxidant and associated anti-lipoperoxidative effects of Ginkgo extracts appear to involve both their flavonoid and terpenoid constituents. The anti-angiogenic activity of the extracts may involve their antioxidant activity and their ability to inhibit both inducible and endothelial forms of nitric oxide synthase. With regard to gene expression, a Ginkgo extract and one of its terpenoid constituents, ginkgolide B, inhibited the proliferation of a highly aggressive human breast cancer cell line and xenografts of this cell line in nude mice. cDNA microarray analyses have shown that exposure of human breast cancer cells to a Ginkgo extract altered the expression of genes that are involved in the regulation of cell proliferation, cell differentiation or apoptosis, and that exposure of human bladder cancer cells to a Ginkgo extract produced an adaptive transcriptional response that augments antioxidant status and inhibits DNA damage. In humans, Ginkgo extracts inhibit the formation of radiation-induced (chromosome-damaging) clastogenic factors and ultraviolet light-induced oxidative stress – effects that may also be associated with anticancer activity. Flavonoid and terpenoid constituents of Ginkgo extracts may act in a complementary manner to inhibit several carcinogenesis-related processes, and therefore the total extracts may be required for producing optimal effects.”

Vinpocetine can be taken as a pill or in herbs like Madagascar Periwinkle (herbies herbs online carries this herb, that is also used in real chemo)...

Butcher's Broom is famous as a heavy metal detox herb...

31) Pitcher plant is in the Zinc family that removes Lead... Use for melanoma, smallpox, staphylococcus, streptococcus, Lead poisoning, pneumonia, multiple sclerosis, lupus...

32) here is an example of a simple protocol that covers each body part systematically: (each Minus element on grove body part chart)

ginger root-Zinc

bloodroot-manganese

white Willow bark extract- titanium

stevia- potassium

Castor oil- Carbon

Ginkgo biloba-Selenium

ginseng-Oxygen

kelp- iodine

licorice root-copper

magnesium- magnesium

moringa oleifera- fluorine

small flowered Willowherb- Boron

5

Organ	Minus -F Element	Plus +M Element
Thyroid	-1 Zinc	Lead+12
Thymus	Manganese -2	Iron +11
Lungs & Lymph Nodes	Titanium -3	Aluminum +10
Heart	-4 Potassium	Aurum +9
Kidneys	-5 Carbon	Nitrogen +8
Pancreas	-6 Selenium	Sugar +7
Liver	-7 Oxygen	Hydrogen +6
Adrenal Gland	-8 Iodine	Calcium +5
Spleen	-9 Copper	Phosphorus +4
Gallbladder	-10 Magnesium	Mercury +3
Colon	-11 Fluorine	Bismuth +2
Gender F or M	Boron -12	Molybdenum +1

larvae

worm

Gender stands for the male prostate or the female prostate which is called Skene's Gland...

8

Note: Zinc is the weakest remedy, Boron is the strongest... Choose the right strength for what stage you are at...

7

6 As "Cancer" progresses, the larvae grow into a worm... So you need a stronger remedy, the further it is along...
