1

Take a picture...of where the tumour is...Close up...In good light...try for no shadows at all...Just where a tumour is, nothing else...(Note: You can take a farther away picture to get an overall idea of what is happening in your body, but to see underneath the skin, you need to be very close up, in very good light)...Any camera or cellphone camera will do...Upload the picture to your computer...If you don't have a computer, & only have a mobile phone, that is ok...If you are on an iPhone, get the free Puffin app from the app store...(Mac devices cannot see Flash websites without using the Puffin browser to get there...Android devices can...)

2

Go to

<http://www.fotoflexer.com>...This is a Free online Photo Editor, so anyone can use it, there is no download at all...Upload your photo, by choosing the upload button...Go to BASIC, & choose the ADJUST option, as seen in the picture...

3

While in the ADJUST mode, SLIDE the HUE SLIDER ALL THE WAY TO THE LEFT...Then slide the SATURATION

SLIDER all the way to the RIGHT...As seen in the picture...Press DONE...(Note:ON a mobile device, instead of sliding, gently TAP the Slider to the left or right, to make it go to the end of the bar...You will have to enlarge the view a bit first to be able to do that accurately...Go slowly...)

4

Now go to EFFECTS...A horizontal bar comes up with a whole list of choices of things you can do...Hit the

MORE button at the FAR RIGHT, to get more choices...Hit the MORE button again, to get even more choices...You are looking for HEAT MAP...Choose HEAT MAP when you find it...Make sure to click DONE(or APPLY) when you are done...

5

Now look for the COLOR ROTATE choice...It is a little to the left of the heat map choice...Click COLOR ROTATE

when you find it...(Make sure to click APPLY or DONE when you are done)...OK...That is ALL...You have your RESULT!

6

The picture shows what colour each element is...

Lead(can be from the heavy metal or can be from red meat or alcohol) blue,

Iron(can be from chicken or Kale or supplements) pink,

Aluminum(cholesterol) pale pink,

Hydrogen(Her2 marker) peach,

Calcium(Pr marker-can be from birth control drugs) yellow...

7

The Chart in the picture shows 12 body parts...(Gender is the Prostate gland in men, & Skene's gland in women...)Each part has a MINUS element & a PLUS element...Minus detoxes, Plus repairs...Cancer is a disease of EXCESS, so too much PLUS, not enough MINUS...So CHOOSE the MINUS elements to cure your cancer...From your Results picture from the FotoFlexer edit, see what PLUS elements are present...Now look at the Chart, & choose the OPPOSITE or MINUS element that corresponds to that Plus element...For lead blue, Zinc...For pink Iron, Manganese...For pale pink Aluminum, Titanium...For peach Hydrogen, Oxygen...For yellow Calcium, Iodine...

Grove Body Part Chart		
Organ (12)	Minus F Element -	Plus M Element +
Thyroid	-1 Zinc	Lead +1
Thymus	Manganes -2 e	Iron +2
Lungs & Lymph Nodes	Titanium -3	Aluminum +3
Heart	-4 Potassium	Aurum +4
Kidneys	-5 Carbon	Nitrogen +5
Pancreas	-6 Selenium	Sulphur +6
Liver	-7 Oxygen	Hydrogen +7
Adrenal Gland	-8 Iodine	Calcium +8
Spleen	-9 Copper	Phosphorus +9
Gallbladder	-10 Magnesium	Mercury +10
Colon	-11 Fluorine	Bismuth +11
Gender F or M	-12 Boron	Molybdenum +12

8

Know that the elements on the Chart can represent MANY different things in the real world...

if you are low in Zinc, that could mean high dose Vitamin C, or Vitamin D3, or Ginger root, or came camp powder, or saunas, or sunshine, or hot showers, or fruit...

If you are low in Manganese, that can mean bloodroot capsules, or Mugwort herb, or Black walnut hull (any decent anti parasitic contains black walnut hull by the way), or Nuts, or Moxibustion treatment (a Japanese treatment), or Nutmeg...

If you are low in Titanium that can mean hulled hemp seeds or basil leaves or Holy Basil supplement, or Frankincense tears or incense or oil, or Mint leaves or Oregano oil, or Chamomile tea, or CBD oil (Cannabidiol), or white willow bark extract, or aspirin...

if you are low in Oxygen that can mean B17 pills, or Apricot kernels, or Dandelion greens or root, or Milk thistle, or any decent liver supplement (like Hepa plus by Usana), or a Papaya seed smoothie (papaya seeds are high in Oxygen-blend with papaya & pineapple & banana & cloves & vanilla beans & aloe drink to make the seeds taste better-this is an anti parasitic recipe too!)...

If you are low in Iodine that can mean eating Arame & other seaweeds, taking Iodoral pills (minimum 12.5 mg daily-up to 50 mg daily), Any liquid Iodine supplement, Kelp pills or liquid...

9

Make sure that you take all the other MINUS items on the chart...One of each...

For Copper use Licorice root (1/3 cup simmer in good water 3 cups drink daily)...Also for Copper drink coffee or tea (caffeinated, & at 6 cups daily you get medicinal benefit)...Copper can also be eating coriander seeds & eating Cilantro leaves...

For Fluorine use Moringa Oleifera (can go in a smoothie)...

For Boron, a supplement is fine, or Small flowered Willowherb is Boron too...Magnesium can mean Epsom salt baths (or orally)...

Xylitol & Stevia are high in Potassium so use them in your hot drinks liberally...

Carbons are all the oils...Castor oil is great...hemp oil...Flaxseed oil...Grapeseed oil...Any oil you like...Baking soda is also a Carbon...

Selenium can mean raw garlic (chop & swallow the cloves with liquid), or Pancreatic enzymes, or Sriracha sauce (mix sriracha sauce into a little orange juice & drink fast), or onions, or cayenne

pepper or any hot pepper, or black pepper, or chives & green onions, wasabi, horseradish, spicy things/tabasco...L-Lysine is also a selenium...Selenium supplements too...

10

Since Plus elements are in EXCESS with cancer...AVOID meat(Lead), sugar, gluten(Nitrogen), dairy(Calcium, Cheeses & yogurts & kefir & cottage cheese!(Phosphorus)...

Avoid supplements containing any of the Plus elements...

so:no probiotics which are Phosphorus,

no Iron,

No B12 which is Aurum,

No Bismuth which includes melatonin,

No antipsychotics which are also Lead,

No zeolites or bentonite clay which are Aluminum,

no maple syrup or honey products which are Sugar,

Liquids are Hydrogens so be careful with them(Her2+ is a Hydrogen marker),

No birth control drugs or HRT (hormone replacement therapy drugs or naturals)which are Calcium(progesterone)-(high dose oral contraceptives also include estrogen which is a Phosphorus)...

11

There is much more information about all these ideas on my blog & in my free books which are all available at <http://www.grovecanada.ca>...Please join our "DIY cancer repair manual" Facebook group, for support & to ask questions...

*If you would like Sari Grove to do the editing for you, friend her first, then send a picture via the private messages service on Facebook...

12

Don't forget to learn how to do the Lunapic edit & the Pixlr edit as well! (Lunapic checks for cancer, & Pixlr helps to track size changes!)

ps.If you have done edits yourself, & think others may benefit, please post the photos in the DIY Cancer repair manual

group...<https://www.facebook.com/groups/DIYCancerRepairManual/> Update your photos over time, so people can see change, & know how it is that you improved! (NIDI is relatively new, so the more documentation we have, the better it will be!)

Thanks, Sari Grove(Sari sounds like Mary)

1

Take a picture & upload it to Lunapic.com (choose Browse, then find your pic in your computer or mobile device)...

2

Choose Adaptive Equalize from the drop down menu called ADJUST...

3

Choose Sharpen from the drop down menu called ADJUST...

4

In SHARPEN slide the slider all the way to the right...On a mobile device, tap the slider at the far right to

make it go there...click APPLY...

5

Choose COLOR SATURATION from the ADJUST menu...

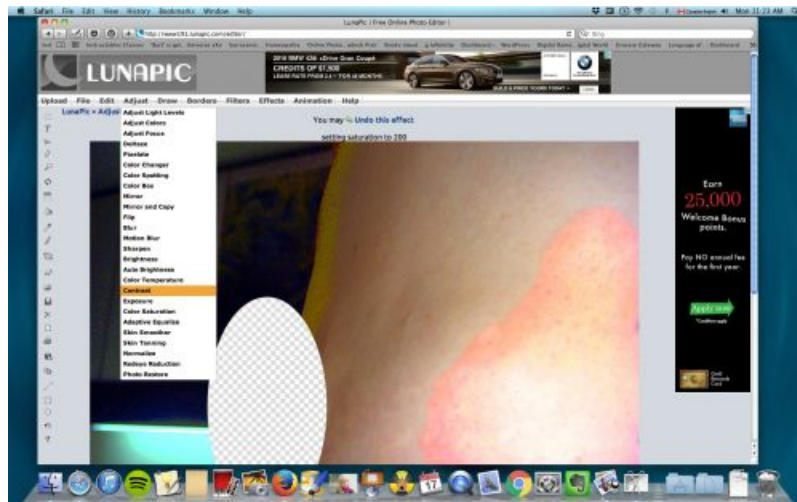

6

Move the slider
all the way to the
RIGHT...Or
change the
number in the
box from 50 to
100...Click SET

SATURATION when done...

7

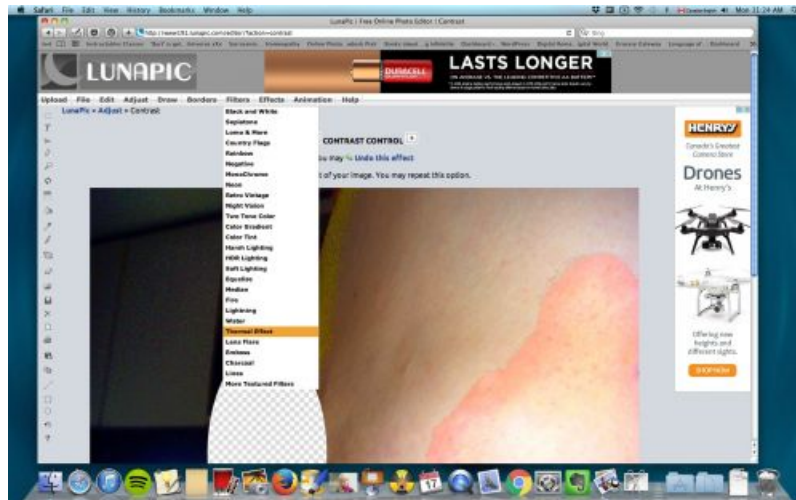

Choose CONTRAST from the ADJUST menu...

8

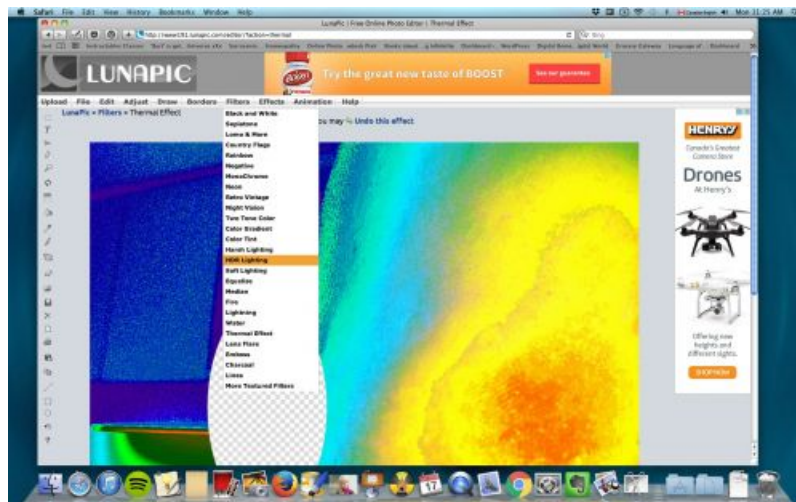

In
CONTRAST,
hit the + button
5 times in a
row slowly...
(wait for page
to reload
before hitting it
again!!!)

9

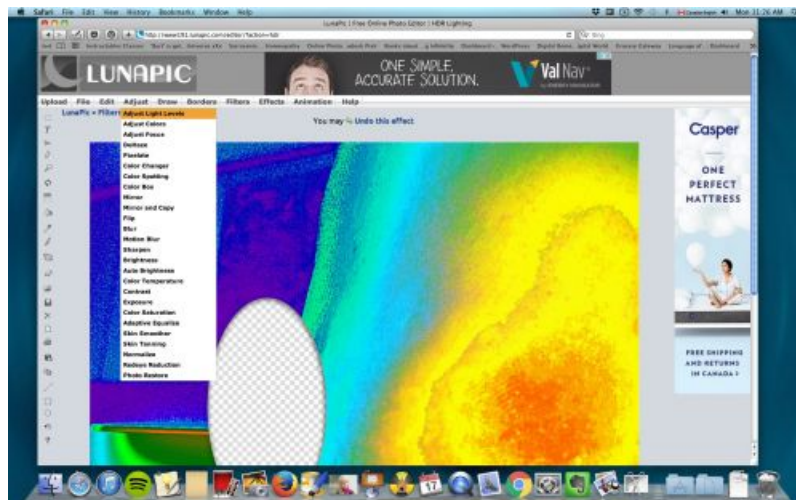

Now go to FILTERS & choose THERMAL EFFECT from the drop down Menu...

10

In FILTERS again, choose HDR LIGHTING from the dropdown menu...

11

LEVELS...

Now go
back to
ADJUST
& choose
the first
choice
which is
ADJUST
LIGHT

12

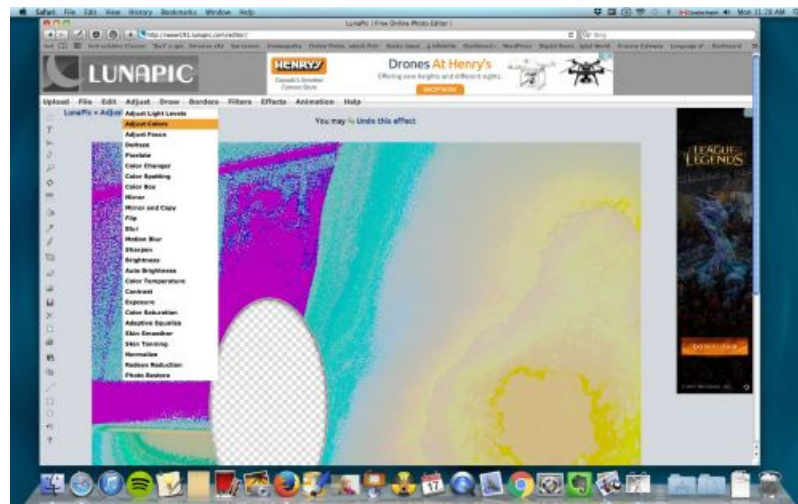

IN Adjust Light levels there are 3 sliders...Slide all three, one at a time, slowly, to the

LEFT...(on a mobile device, enlarge the picture, then TAP the bar at the far LEFT to make it go there)...

So Contrast, then Highlights, then Shadows, all the way to the LEFT please...

Click APPLY when done...(don't forget!)

13

Now in Adjust again, choose the second choice which is ADJUST COLORS...

14

In Adjust Colors, you are going to click ALL THREE choices, slowly, one after

another...

So click in SWAP COLORS Red & Green, then Green & Blue, then Blue & Red...

Click APPLY when done, don't forget!

15

Last step!!! In ADJUST again, choose NORMALIZE...

16

The colour PURPLE in Lunapic is Phosphorus which is a Cancer marker...(not the pink!) See the purple area in this breast lump? That is where the cancer is...(a tumour is usually just a fraction cancer & the rest is nothing to worry about)...Also note:Cancer does not always sit on a tumour-sometimes it sits in a corner near to a tumour...That is normal...Don't always expect the purple to be right on a tumour area... (Very Pale purple or mauve indicates high Phosphorus levels & a pre-cancer stage...Many doctors just call this cancer too...)

17

That purple area, the Phosphorus responds well to the Copper family, which includes for example:

Eating Cilantro leaves

Eating Coriander seeds

Drinking coffee(like 6 cups a day)

Drinking tea(strong & more is better again)

Buy a bag of licorice root from a herb store online...Take 1/3 cup licorice root, simmer in 3 cups good water for 15 minutes or so, then drink daily...This will make the purple in your

picture go away...You will be able to see it happen...When your lump is benign there will be no more purple in the picture...(I did this using licorice root by the way-other forms work too-capsules, tincture, just make sure it is very very strong daily...Not the dilute tea bags type of thing...This is medicine, not for taste sorry!)
